Dear Long Yee Ying

I am very pleased to advise you that credit has been awarded for the following ACA papers.

Accounting
Assurance
Business and Finance
Law
Management Information
Principles of Taxation
Financial Management

Details of the basis of the credit awards are attached and in order to apply for credit students will need to have achieved a minimum mark of 50% in all modules listed above. For Business Finance it has been decided to award credit on the basis of a first or upper second degree as generally learning outcomes for this paper are incorporated into modules throughout the programme. Other graduates may apply for credit on an individual basis but will need to demonstrate that they have met our learning outcomes within their degree studies.

Credit will be awarded from 2016 and is subject to compliance with the standard conditions of approval and any special conditions of approval which have been imposed. We will be in touch with you each year to check whether there have been any material changes to the degree programme which would impact upon the credit arrangements.

As always if you have any questions or need clarification of any point concerning the credit arrangements please do not hesitate to contact me.

Yours sincerely

Mrs Fiona Moore
